VOL. XXII, NO. 20 GAINESVILLE, FLORIDA, THURSDAY, MARCH 2, 1905 TEN CENTS A WEEK

GORKY IS RELEASED THEN IS BANISHED

Man Accused of Inciting Riots To Live At Riga.

NOTICE OF GRAND DUKE'S DEATH

The Fighting Organization of the Social Democratic Party Sending Nicely Printed Matter Announcing that Death Sentence Had Been Executed

St. Petersburg, March 1.—Maxim Gorky, who was released from the fortress yesterday on $2,500 bail, was banished last night to Riga after he had been informed of the decision of Governor General Trepoff that he could not remain in St. Petersburg.

According to the official statement, M. Gorky himself preferred a request that he be allowed to reside at Riga and thereupon General Trepoff acceeded and the author was conveyed to the railroad station. In the meantime Madame Gorky had been informed of the author's release and went to the railroad to bid him farewell.

MAXIM GORKY.

Mme. Gorky and her son will join him in Riga immediately.

The utter impotency of the police in the face of the terrorist organization is shown by the increasing boldness of the latter all over St. Petersburg. Even on the steps of the public buildings simple notices of Grand Duke Sergius' death were found. They read:

"The sentence of death passed upon Sergius Alexandrovitch was executed Feb. 17. (Signed) The Fighting Organization of the Social Democratic Party."

Moreover, the notices were neatly printed, a thing unknown in the days of the late Interior Minister Von Plehve, when similar notices were always run off on copying machines. The secret police then were too close on the heels of the Terrorists to permit of the use of the printing press.

ACQUITTED BY CORONER'S JURY.

Young Man Who Killed Atlanta Man Is Released from Custody.

Atlanta, March 1.—Justifiable homicide was the verdict of the coroner's jury at the inquest held over the body of Peter F. Ryan, who was shot and killed by T. G. Foote, a lithographer, Sunday night.

The statement made by Foote before the coroner's jury was substantially the same as the statement published.

Foote said he was walking up McDaniel street when he saw a suspicious negro, who crossed in front of him several times, and was finally lost sight of at Richardson street.

Bodies Not Yet Recovered.

Blakely, Ga., March 1.—After a week's search the authorities of the Central railroad have been unable to find the bodies of Engineer Pate, Extra Engineer Dobbins, and Fireman Batese, who were on the engine of the passenger train which ran into the Chattahoochee river at the drawbridge near Columbia, Ala., on the 19th instant. The wrecked locomotive and tender have been raised. The government dredge boat lent valuable assistance. The railroad officials who have been present at the wreck since its occurrence assisting in the search returned home today.

NEWS FROM NATIONAL CAPITAL.

Interstate Commerce Committee May Meet During Recess.

Washington, March 1.—Immediately after the senate convened at 11 o'clock today Mr. Kean, from the committee on the interstate commerce reported a resolution authorizing that committee to direct an inquiry into railroad rates during the approaching congressional recess and it was referred to the committee on contingent expenses.

The house joint resolution authorizing the president to convey the thanks of the United States to foreign governments participating in the St. Louis exposition, was agreed to.

The chair brought to the attention of the senate a communication from former Senators Thurston and Higgins, attorneys for Judge Swayne, in the recent impeachment trial, making a request for a sufficient alowance to the judge to pay his expenses of the trial, including counsel fees.

The comunication was referred to the committee on judiciary.

The anti-polygamy resolution introduced by Mr. DuBois, was then laid before the senate and Mr. Kearns addressed the senate.

In the House.

When the house met today consideration was given to a number of bills by unanimous consent. The folowing were passed:

Conveying to the city of St. Augustine, Fla., for school purposes, the strip of land known as "the Lines;" setting aside certain public lands in the Phillippines for school purposes; authorizing the county of Quitman, Miss., to construct bridges across the Coldwater and Tallahatchee rivers, Mississippi, to provide for circuit and district courts of the United States at Selma, Ala.; authorizing Triggs county, Kentucky, to bridge the Cumberland river at or near Caton, Ky., providing for an additional circuit judge in the seventh circuit (Indiana, Illinois and Wisconsin), and providing for an addtional judge of the district court of New Jersey.

I the case of the latter bill, Mr. Lind (Minn.) facetiously inquired of Mr. Parker (N. J.), who called it up, if it would be satisfactory to have an amendment transferring Judge Swayne to the new district.

Mr. Parker declined to answer, the Democrats in the meantime indulging in laughter.

DR. OSLER MISQUOTED.

Did Not Mean to Chloroform Old Men, Only Retire Them.

Baltimore, March 1.—Dr. William Osler, of Johns Hopkins university, who recently made some declarations concerning men older than 40 or 60 have given out this signed statement with the view of correcting errors which have arose from misquotations:

"I have been so misquoted in the papers that I should like to make the following statement:

"First, that I did not say that men at sixty should be chloroformed. That was the point in the novel which I referred, and on which the plot hinged.

"Secondly, nothing in the criticisms has shaken my conviction that the telling work of the world has been done and is being done by men under 40 years of age. The exceptions which have been given only illustrate the rule.

"Thirdly, it would be for the general good if men at 60 were relieved from active work. We should miss the energies of some young old men, but, on the whole, it would be of the greatest service to the sexagenarians themselves."

Catechism Committee Adjourn.

Cincinnati, O., March 1.—The catechism committee of the Methodist Episcopal church and Methodist Episcopal church, South, which has been in session for the past few days in this city, finishing its labors on a common digest of the junior and senior catechism rounded out its work, and put it in such shape that its report may be submitted to the spring meeting of the boards of bishops of both churches. The work is largely that of restatement, as there were no doctrinal differences to settle and using such language and forms in both catechisms as will be better adapted to the minds of the juvenile.

RUSSIANS UNABLE TO STAY JAPANESE

General Kuroki Is Forcing the Russian Army Back.

JAPS REPULSED ALL ATTACKS

St. Petersburg Fears that General Kuropatkin Will Not Be Able to Stop Onward March of Mikado's Army. Decisive Battle May End War.

Advices from both Russian and Japanese sources indicate that sharp fighting has been in progress along the Shakhe river for a week, but the rather meager dispatches which have been pemitted to come through do not make it clear that whole of the extended lines of Kuropatkin and Oyama are yet engaged.

The intiative will be taken by the Japanese. Several heavy attacks were delivered against the Russian left, which apparently has been forced back from its advanced positions with considerable loss, and the Japanese have occupied some villages heretofore within the Russian lines. As usual the reports from Russian and Japanese sources conflict, Kuropatkin claiming to have repulsed the Japanese at several points, while Oyama reports general success.

Tokio, Feb. 28.—4 p. m.—Field Marshal Oyama reports that the Russian batteries at Manpoo mountain, Sahapao and Surfangtai occasionally shell his lines. Small bodies of Russian infantry attacked four Japanese positions west of the Mukden road on Sunday night. They were all repulsed.

The Russians have resumed the construction of defense works in the vicinity of Litapentun. They occasionally shell Chenchiepao.

It is reported that when the Japanese attacked and defeated the Russians Feb. 23, at Tsinketchen, 25 miles north of Simachion the extreme Japanese right, the Russians numbered 12,000 men. The losses are estimated at 2,000. The Japanese loxses were slight.

From Kuroki's Headquarters.

General Kuroki's Headquarters in the Field, via Fusan, Feb. 28.—In the fighting on Feb. 22-23 at Tsinketchen the Russians left 203 dead on the field and lost several machine guns. Their casualties are estimated at over 2,000.

News at St. Petersburg.

St. Petersburg, Feb. 28.—7:15 p. m.—The fragmentary official and press reports of the fresh reverse sustained by General Kuropatkin are inadequate to draw a conclusion of the magnitude of General Kuroki's successes against the Russian left, but the public, as usual, is ready to believe the worst and the city is already full of reports that a big disaster has again overtaken the Russian arms, according to which Mukden has been outflanked and is untenable and Kuropatkin is withdrawing from his strong position on the Shakhe river. That such reports are exaggerated is beyond question, but although reticent and seeking to minimize the operations of the last few days the officials of the war office are plainly discouraged at the fashion in which Kuroki is able to drive in and turn the Russian extreme left, his advance columns actually crossing the Shakhe river.

It is admitted that fighting was desperate on Sunady and Monday, while the front was being involved, Field Marshal Oyama evidently being utilized to keep the center and right engaged and prevent Kuropatkin from sending reinforcements to head off Kuroki. Should Kuroki cross the Hun river, the high road to Tie Pass, 40 miles north of Mukden would be open and Kuropatkin's retreat threatened.

Further news is awaited with great anxiety.

Anything like a decisive Japanese victory now would probably end the war.

General Kuropatkin in a dispatch to Emperor Nicholas dated today says:

"Ten attacks made by two Japanese battalions and some cavalry west of the village of Tansintong have been repulsed. The Japanese renewed the attack in the morning of Feb. 27 and were again repulsed. They left a hundred corpses in front of our positions. The Russian loss was six men."

TWO NEGROES ARE HELD.

In Alabama Town for the Murder of Miss Bell Bloodworth.

Decatur, Ala., March 1—Detective C. H. Heflin, of Atlanta, arrested John Collins and Harvey Smith, negroes, here today for the murder of his first cousin, Miss Bell Bloodworth, on the night of Jan. 21.

Collins broke down when arrested, and said Smith did it. Smith refused to talk. Bloody overalls containing a notebook with Collins' name on it were found near the scene of the crime, and Collins denied his guilt, but the officers say they have sufficient evidence to convict both negroes.

They were taken to Birmingham today for fear of a mob. After returning from her father's store, after carrying his supper to him about 6:30 o'clock, she failed to arrive home and a search was made. Her lifeless body was found within a block of her home at 10 o'clock the next morning.

HELEN POST GETS NEW TRIAL.

Faith Cure Operator, After Conviction, Gets Another Chance.

New Orleans, March 1.—Helen W. Post will have a new trial. She is the defendant in a criminal case brought before the United States court, southern district of Florida, on four indictments for using the mails for fraudulent purposes.

She was found guilty and appealed the case to the United States circuit court of appeals and the latter today reversed the judgment and remanded the defendant case for a new trial.

The defendant operates a mental science, or faith cure, institution at Sea Breeze, Fla., and she was criminally charged before the federal courts.

The decision covers 20 typewritten pages, and is said to be a precedent.

ANCIENT STATE MONEY FOUND.

Sheriff of Sumter County, Ga., Makes an Unexpected Discovery.

Americus, Ga., March 1.—Sheriff E. Bell stumbled unexpectedly upon a small fortune, seemingly, this afternoon.

While examining a box containing old deeds and papers, the property of his father, the late Alfred C. Bell, he found a large package of money issued by the state of Georgia in the sixties, and aggregating several thousands dollars.

It is entirely different from other state money of that period, and prominent attorneys this afternoon advised Sheriff Bell that his bills were redeemable at their face value, with 6 per cent interest from date of maturity, 45 years ago.

Holmes' Works Bring Big Price.

New York, March 1—Original of Oliver Wendell Holmes' "Autocrat of the Breakfast Table," has been purchased by J. P. Morgan for $40,000. The manuscript is in good condition and is to be placed among the most valuable in American literature. It contains about 300 closely written quarto pages and includes the poem "The Wonderful One-Horse Shay;" "The Chambered Nautilllusat," "Parson Turrell's Legacy" and "The Living Temple."

Prominent Shriners to Visit Atlanta.

Atlanta, March 1—Imperial potentate of the United States, George L. Brown, of Buffalo, and imperial recorder, B. W. Rowell, of Boston, will be in Atlanta Thursday, March 2, on a tour of inspection. Their stay here will be very short and the nobles will have no opportunity of entertaining them, except with the special meeting of Yaarab Temple, which will be held Thursday night.

Inhabitants Desert Colorado Towns.

Denver, Col., March 1—A News special from Flagstaff, Ariz., says that the towns of Holbrook and St. Johns, situated in the Apache valley, have been almost completely deserted by their inhabitants who fear that the immense dam of the St. Johns reservoir company will break from the strain of flood waters due to the almost incessant rains for many weeks past.

TEN NEGROES KILLED IN CHURCH DISASTER

Floor of Building Collapsed By Breaking of Beams.

UPWARDS OF FIFTY ARE INJURED

Those Who Were Not Injured Become Panic Stricken and a Terible Scene Ensued—Negroes Were Attending a Funeral Service.

New York, March 1—A searching investigation was begun today by the county and borough authorities of Brooklyn to ascertain the cause of the collapse of the floor of the Fleet Street African Methodist Episcopal church of Zion, last night when ten persons were killed and upwards of 50 injured.

It was ascertained today that the cause of the collapse was the breaking of a heavy beam supporting the floor and running lengthwise of the church near the south wall. Under the weight of the great number of people gathered above it snapped square in two midway between the front and rear of the church.

Coroner Flaherty, of Brooklyn, today began his investigation and soon afterward declared that the disaster was due to gross negligence on the part of some one, and asserted that it is his intention to fix the blame for it upon those guilty.

Three hundred persons were crowded into the pews and aisles of the church last evening to attend the funeral of Sidney Painter, when a section of the floor, about 40 feet square, fell into the basement 10 feet below, which was used as a Sunday school room. Into that hole the throng of people fell until they filled it to the level of the floor, 10 feet above. Those underneath were crushed to death by the weight of those above.

Eight of those killed were negro women and a similar large proportion of the injured were women. Those who were not either killed or badly injured became panic-stricken and a terrible scene ensued when their frantic efforts to escape from the building in the absolute darkness and clouds of dust from splintered flooring, added to the horror of the disaster.

Two hundred of the funeral party and members of the negro order of Elks, who were assembled in the basement below the main floor of the church, were not under that portion of the floor which fell, and so escaped injury.

A revised list of the dead follows:

Bertha Green, Theresa Ellis, Samuel Chisholm, Anna Dean, Benjamin Clark, Anna Sulia, Anna Louise Smith, Frederick H. Voorhees, Harriet Nelson and Ruby Thorpe.

Of the injured there are ten in the hospitals suffering from fractured limbs, broken bones and contusions, but none of them is believed to be fatally injured.

NAN PATTERSON IN COURT.

Habeas Corpus Trial Postponed Until Wednesday—Room Crowded.

New York, March 1.—Argument on the writs of habeas corpus and certiorari obtained for Nan Patterson, who is charged with the killing of of Caesar Young, was postponed today until tomorrow by Justice Gaynor in Brooklyn at the request of the district attorney to allow the assistant district attorney to be present.

Miss Patterson was present in court accompanied by her father. She appeared in high spirits. There was an immense crowd in and about the courthouse, when the prisoner arrived, and the scene so displeased Justice Gaynor that he only granted the request for postponement under the understanding that it would be unnecessary to again bring Miss Patterson to court.

Will Not Quash Indictments.

Cleveland, O., March 1.—Judge Taylor, of the United States district court, today overruled the motion of Attorney J. P. Dawley, counsel for Mrs. Chadwick, that the two indictments returned against her by the federal grand jury on Feb. 21, be quashed.

THE CHAUTAUQUA OPENING PROGRAM

Rev. Sam P. Jones on "This, That and the Other."

DR. STROUSE CALLS TO ORDER

A Large Audience at the Tabernacle to Inaugurate the Second Assembling of the Florida Winter Chautauqua. Drs. Strouse and Blackstone Extend a Hearty Welcome.

All nature seemed so beautiful and the day so bright, that the large concourse of people who came out yesterday afternoon to be present at the opening of the second session of the Gainesville Chautauqua, were in accord, and smiled even when the Rev. Sam. P. Jones—of Cartersville—opened up an old jar of preserves that they had sampled on previous occasions.

The Tabernacle was well filled with an audience that came to hear and cheer the opening remarks of Rev. Dr. Strouse, who has worked with much devotion to the cause he espouses, and when he began he gave the credit to Dr. Davidson for the excellent program so auspiciously opened. At the conclusion of his earnest prayer he called on Dr. W. E. Blackstone, who mentioned the fact that from one Chautauqua started in this country but a few years ago, there were now 260, and that they were held for the purpose of pleasing and instructing the people. He thought it was not God's plan that the devil should have all the amusements. He thought there was no reason why we should not have cheerful Christians, and live a heavenly, joyful life. The chautauquas are intended for enjoyment as well as instruction. He believed we were going to have a good Chautauqua, and spoke highly of the attractions, many of which would be of the highest order.

After Dr. Blackstone had taken his seat the Rev. Sam P. Jones—of Cartersville—stepped to the front of the rostrum and began to say "We come from the—(applause)—passing from the sublime to the ridiculous, although the transition may take your breath away, this audience reminds me of Utah—about seven women to one man." He then paid his compliments to the sisters and said he loved them all as much as his wife would permit. In speaking of chautauquas, he said they were having a large and healthy growth, about 40 a year being the increase, and that Iowa had 32 and Illinois 30. That they were multiplying and were a necessity, as the people were tiring of the county fair and Methodist camp-meeting, as there were no more big pumpkins for the fair and not enough religion for the camp-meeting. He did not think that science and religion went well together.

On the divorce question he said he kept quiet. He didn't believe God joined many of the people together these days. He thought the devil did most of it. He said he would like to see the time when any man or woman could get a divorce by walking into a court room and asking for it; but if either got married again they would be sent to the penitentiary for life.

God's eye has been on the world ever since he rolled it into space, he said, and he believed in faith—walking in the faith, and being saved by faith, and not by sight. That you should not see to believe.

As he had to speak again he said he would not tell all this time, as the people would not come again, and he closed with a very pleasing smile and request to hear the rest later.

Dr. Strouse made the announcements and the meeting closed, all feeling pleased to see so many on hand at the first of the series of meetings and entertainments.

Today's Program.

The program for today begins with a lecture at 10:30 a. m. by that popular platform speaker, Dana C. Johnson, his subject being "Thomas Jefferson." Mr. Johnson is a pleasing talker.

There are two numbers on the program for the afternoon. At 2 o'clock Miss Bed-Oliel will give her picturesque Oriental entertainment, with a number of ladies attired in the costumes of the East. At 3 o'clock Rev. Sam Jones will deliver his lecture, "Hot Shot for Speckled Birds."

At the evening exercises, beginning at 7:45, Miss Charlotte Cooke will render several violin soles, to be followed by Lou J. Beauchamp in his lecture, "Taking the Funny Side."

The evening program on the opening day consisted of violin solos by Miss Cooke, and the entertainment, "Life in Palestine," by Miss Florence Ben-Oliel, assisted by nineteen ladies dressed in the picturesque costumes of the Eastern countries, followed by a lecture by Sam Jones, the irrepressible.

Both lectures were of much interest, and as a prelude to the regular program, Mr. Dana C. Johnson made a few remarks and Mr. Jones gave a random talk, while the people were waiting for the ladies to array themselves.

Dr. Strouse took occasion to urge all to be promptly on hand at 10:30 this morning to hear the lecture on "Thomas Jefferson."

LIFE BY ARTIFICIAL MEANS.

Remarkable Scientific Discovery Made by a California Professor.

University of California, March 1.—Extraordinary results have attended recent experiments of Dr. Jacques Loeb, of the University of California, who has been delving deep into the mysteries of life and who now announces, without reservation that his experiments have produced most surprising results, which involve the production by artificial means, of sexual fertilization in the eggs of sea urchins, a consummation long sought but hitherto not attained in any such measure as through the most recent experiments of Dr. Loeb. Says Dr. Loeb, at the conclusion of a long statement regarding his work:

"It is obvious that we are now able to imitate the process of sexual fertilization in the egg of the sea urchin completely, and in all its essential features purely physical and chemical means."

THIS COMPANY PROSPERS.

Florida Fertilizer Company Selling Quantities of Goods.

The people of Gainesville are proud of such manufacturing enterprises as the Florida Fertilizer Manufacturing Company, and are always glad to learn that such institutions are prospering.

In conversation with President Wooley of this company yesterday it was ascertained that the company is enjoying a fine business, the shipments so far this season amounting to about 20 per cent over the same period last year, notwithstanding that last year was the most successful ever enjoyed by the company.

This company employs a large number of men, and several thousand dollars are paid out monthly, all of which is distributed among the Gainesville merchants.

This company ships its products to all parts of the State from Pensacola to Key West, and the fact that the same parties are customers every year is the best evidence that the goods are all that is claimed for them.

Cured Consumption.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and $1. Sold by W. M. Johnson.

Mrs. Beck Dead.

The people of Campville are sorrowing over the death of Mrs. Elizabeth Beck, the sad demise of whom occurred Friday in the ninetieth year of her age. Mrs. Beck was a noble, Christian lady, and as long as she was in good health an earnest church worker. She was buried at Campville cemetery Saturday.

A sad conclusion of this affair was the death on Monday of Mrs. Madison Beck, a daughter-in-law of the lady who died Friday. She was about forty-five years of age, and was possessed of an affectionate nature. She was buried Tuesday.

The surviving relatives have the sympathy of The Sun and other friends.

Strikers Can Talk to Employees If There Is No Sign of Violence.

Members of the union declare that tion marks a change in the attitude fition marks a change in the attitude of the courts in labor struggles.

Men, women, and girls will picket all factories where the walk-out prevails and attempt by peaceful means to persuade non-union workers to quit work and join them.

Judge Kavanaugh decided the strikers should not be prevented from peaceably speaking to the non-union employes as long as there was no semblance of persecution.

THREE MURDERERS WERE INDICTED

By the Grand Jury in Open Court Wednesday Afternoon.

PROGRESS OF THE COURT

Appears to be Slow, But the Criminal Docket is Being Relieved of Many Cases—Two Prisoners Wednesday Pleaded to Murder in Second Degree.

While there was apparently a slow proceeding in the circuit court Wednesday, a great deal of business was transacted by that honorable body.

The court convened at 9 o'clock, His Honor Judge Will presiding.

The following business was disposed of:

In the case of the State vs. Richard Thomas, convicted of selling liquor in a dry county, was sentenced to pay a fine of $200 and cost of the court or spend four months in prison.

State of Florida vs. Neil Guton, indicted for murder in the first degree. Prisoner arraigned and pleaded guilty of murder in second degree, and was sentenced to life imprisonment.

State of Florida vs. Oscar Hopkins, murder in first degree. Prisoner arraigned and pleaded guilty of murder in second degree, and sentenced to life imprisonment.

State of Florida vs. John Brown, alias John Brown, breaking and entering. Prisoner arraigned and pleaded guilty and sentenced by the court to five years imprisonment.

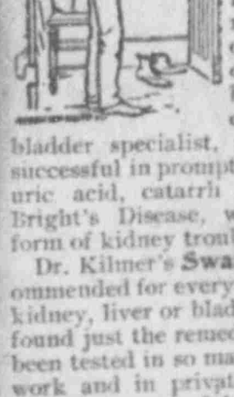
A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by all druggists.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.



It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

ARRESTED FOR SWINDLING.

Endeavored to Work Different Life Insurance Companies for Money.

Macon, Ga., March 1.—Warrants were issued at noon today for the arrest of Mrs. Maggie Young, who is charged with a gigantic swindle against life insurance companies.

The grand jury indicted her in two cases this morning, in each of which she was charged with impersonating other people in applications for life insurance.

One application was made to the New York Life and one to the Penn Mutual. Detectives have been here several days trying to get evidence to show that she poisoned Mrs. Mary Jane Gloss, who died suddenly ninety days ago at Mrs. Young's home, immediately after she took a $10,000 policy in Mrs. Young's favor. A physician who attended her said that arsenic or cocaine poison killed her. No certificate could be secured and the Equitable from which the policy was issued, has been making investigation.

Mrs. Young is quite ill at her home on Columbus road, but the officers have gone to carry her to jail.

Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at all drug stores.

Brilliant.

"Did my diamonds call forth any comment?" asked Mrs. Cumrox.

"Yes, indeed," answered Miss Cayenne. "I heard several people refer to you as the human chandelier."—Washington Star.

NATIONAL EDUCATORS MEET.

Over Seven Hundred Delegates Gather at Milwaukee, Wis.

Milwaukee, March 1.—Over 700 prominent educators from all parts of the country are attending the convention of the department superintendents of the national educational convention which opened in Milwaukee today.

Among the most prominent are W. T. Harris, United States commissioner of education, Washington, D. C., and William N. Maxwell, of New York city.

A review of the educational features of the Louisiana purchase exposition was the topic discussed at the first session. Howard J. Rogers, one of the principal speakers, drew attention to the favorable conditions which governed the educational exhibit.

Two lines widely different from American practice seemed to stand out prominently in the exhibit, he said, and must always be in mind in comparing educational systems. The first is the promotion of class distinctions by educational training as illustrated in the systems of primary and secondary instructions; the second is the training of young men for commercial and political fields, particularly in reference to colonial and foreign service.

Champion Liniment for Rheumatism.

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by all druggists.

Texas Wins Anti-Trust Case.

Washington, March 1.—The supreme court of the United States decided the case of the National Cotton Oil company versus the state of Texas, involving the Texas anti-trust law. The senate court found the company guilty under that law and held that it had forfeited its right to do business in the state. The case was appealed to the supreme court on constitutional grounds. That court, however, in its opinion today, which was delivered by Justice McKenna, held that the charge was untenable and sustained the verdict of the lower court.

The Standard Oil product does not seem to allay the tempest when poured on the troubled waters.

A college professor advises the raising of the tuition fee at the prominent colleges from $150 to $500.

Evidently Uncle Sam forgot to turn over a new leaf. The Federal treasury deficit for January is $6,216,000.

The students of Russia complain that they can't study, owing to the excitement, and consequently must join in the fighting.

If Gainesville should develop into a haven for the cure of asthma, we may expect a rush of many affected with that complaint, provided they can raise the "wind."

The birthday of Thomas Jefferson, the immortal among Democrats, will be observed by the New York City faithful with great eclat. Would that we had a few such now.

Governor Folk of Missouri is desirous of having a bill passed by the Legislature of that State making it a felony to carry firearms, punishable by a heavy fine or imprisonment in the penitentiary.

It is authoritatively stated that the cross-ties of a railroad now cost twice as much as the rails. The future of the cross-tie seems to be one of the questions most urgent of solution in modern railroading.

S. C. T. Dodd, who has resigned as general solicitor of the Standard Oil Company, probably drew the largest salary of any individual in the United States. Mr. Dodd has for years drawn an annual salary of $250,000.

Some of the railroads of the State are threatened with prosecution if they are not more careful in putting up the bulletins of the arrivals of trains and announcing the fact that they are late. But they are not in the least worried.

New York is to have a world's fair in 1909 in honor of the discovery of the Hudson river. The Dutch families, headed by an uncle of President Roosevelt, will raise forty million dollars for the purpose. Options on six hundred acres of land have been secured.

Melba sings in Jacksonville Friday night. Melba, like Patti, is "in the full maturity of her vocal powers," and they are so very much matured that her audiences have but the satisfaction of saying they have heard Melba. The voice of "incomparable beauty and splendor" is not what it used to be, although Melba is still a great singer.

The propensity to "bud" (or graft) is becoming so common in the Republican party in the North that it brings the blush of shame to the cheek of those who would be a little modest in their desire to pluck the goose. One man, who had been plundering a State institution, when called by the Governor, informed His Excellency that his pilferings were tame compared to what others had been doing.

STANDARD OIL'S MISTAKE.

Following the lead of Kansas, there are movements in Wisconsin, Missouri and Oklahoma for the establishment of State oil refineries, and a bill has appeared in the Colorado Legislature authorizing an appropriation for such a purpose. Long experience and hundreds of futile attempts have proved that it is unprofitable, and hence impracticable, for private enterprise to undertake to compete with the Standard Oil Company. Unlimited financial resources, absolute control of all pipe lines and tank cars, and advantageous agreements with railroads, coupled with the ownership of all refineries, have placed the producer—that is, the owners of oil wells—at the mercy of the oil trust. Every effort, on no matter what scale, or backed by no matter what amount of capital, to establish anything approximating actual competition has failed so signally as to prove that nothing short of public enterprise could possibly stand out against the exactions of the Rockefeller company. The injection of sentiment into the contest puts the whole business on a new basis. In the present struggle there is something more behind the movement than a desire to make profit out of a legitimate industry; there is the temper of the people, a hatred of monopoly that is growing stronger daily, and an increasingly powerful feeling that the solution of the trust problem rests not with individuals but with the State and the Federal Government.

ENIGMAS OF JURY TRIALS.

Every day there turns up in some part of the country one of those enigmas that cause the people to wonder at the peculiarities of the average jury, and when the jury in the case of the negro, Gus Mashby, charged with the inhuman murder of Ed Parr, another negro of a similar hue, brought in a verdict of guilty and asked for clemency at the hands of the judge in the circuit court Tuesday, a look of disgust was quite visible on his honest countenance.

The evidence showed a most depraved nature on the part of the criminal at the bar of justice, and his past record was one of crime, yet he was thrown on the mercy of the court, and for what good reason it is beyond the power of many who know the facts to solve.

No more striking instance of ill-considered legislation has been furnished in recent years than is presented by the naval appropriation bill of this session. Early in the session Republicans as well as Democrats declared that the condition of the nation's finances would not permit of the construction of more great battleships at enormous cost, and it was generally accepted that none, or at most only one, would be authorized at this session of Congress. The President, however, who is determined to have his "big stick" policy carried out, has demanded that not less than three big battleships be authorized and the House last week passed a bill providing for two, all that the President really expected. Now the Senate committee on naval affairs has determined to follow the lead of the House, not because it believes that the country can afford to or ought to build two ships, but because the time is so limited that greatest expedition can be effected by accepting the House bill and refraining from crossing the will of the President.

Held for Embezzlement.

Birmingham, March 1.—Ex-Mayor James L. Cole, of North Birmingham, was arrested on an indictment charging embezzlement of funds amounting to over $5,000. It is alleged in the bill that he misappropriated these funds, which belonged to the municipality of North Birmingham. He made bond immediately.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

As a result of a recent visit to Texas of a number of commissioners of the Japanese government a great Japanese colony will be planted in Southwestern Texas, for the growing and manufacture silk. A splendid tract of land has been secured and upon each five acres of this will be settled a Japanese family. It was the opinion of the commissioners that the Japanese with their methods of cultivation would reap a profit of at least $200 per acre in silk cultivation. The first installment of Japanese, numbering 500 or 600 persons, will leave Japan in the course of two or three months.

Lincoln's Law Partner Dead.

Boston, March 1.—Harry C. Whitney, at one time associated with Abraham Lincoln's law office, in Springfield, Ill., is dead at his home in Salem. He was at one time a state senator in Kansas. Mr. Whitney figured in a sensational divorce trial in Chicago in 1890, and was the opposing counsel. During the hearing the women who brought the suit fired at him five times with a revolver. Shortly after the trial Mr. Whitney removed to Salem, where he had since resided.

The cruiser Chattanooga, as soon as she has been fitted out, will join the Caribbean squadron of the North Atlantic fleet.

APPLICANTS MUST SUPPLY PHOTOS

This Rule Will be Enforced by Superintendent J. L. Kelley.

MUST BE GOOD LOOKERS

If They Would be Sure of a Job Teaching the Young of Alachua—Looks Will Figure on the Same Level With Efficiency in Future.

There is a law—an unwritten law—in the Board of Public Instruction that applicants for teachers from others than residents of Alachua county be required to file their photograph with the application. This is not an order of Superintendent Kelley, whom it must be admitted admires with all his heart the likenesses of handsome young ladies, but an informal order and instruction from the board, which has been in effect for some time—a great many months before Dr. Kelley assumed the important position of superintendent, and it is good-naturedly claimed that the order emanated at the suggestion of former Superintendent Holloway. At any rate, it is an unwritten understanding, and Dr. Kelley states that he proposes in future to enforce it.

Teaching school is indeed a peculiar profession. However efficient a teacher may be, the patrons of the school prefer a good-looking instructor, whom they declare will command a better prestige. In negotiating for a teacher they will invariably ask of the superintendent what kind of a looking person the applicant may be, and in a great many cases formerly the superintendent has been unable to answer. Dr. Kelley, however, proposes in future to be in position to meet these conditions, and will have the photograph on file with the application.

"You know it's peculiar but it's true that looks have a great deal to do with the employment of teachers," remarked Superintendent Kelley. "A fine teacher who is not favored with form and grace and beauty does not stand ordinarily half the show that some better looking person might have with half the training and ability."

Dr. Kelley states that he will insist in future that all applications beyond the limits of the county be accompanied by photographs, and no objection will be made to photographs of applicants within the county.

"There is another thing to which I desire to call the attention of teachers," remarked the Superintendent, "and that is, some teachers must improve in penmanship. It would surprise you to see the miserable writing of some of the most efficient teachers in the employ of the county. I will insist that in future applicants and teachers shall be proficient in this branch, which has been sadly neglected, for I do not believe it practical for teachers to teach successfully something which they do not master themselves. I know of several instructors who are eminently proficient in other branches, but they must 'brighten up' if they want to hold a job in Alachua county."

Dr. Kelley states that the board has continued the arrangement with East Florida Seminary for the attendance of teachers at the normal, which begins on the 13th inst. and continues for two weeks, and is very anxious that all teachers who can do so, attend. This will have a great deal to do in the matter of appointment of teachers for the coming season.

DREAD OF HUMANITY

I am compelled by a sense of gratitude to tell you the great good your remedy has done me in a case of Contagious Blood Poison. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus. I lost in weight, was run down, had sore throat, eruptions, splotches and other evidences of the disease. I was truly in a bad shape when I began the use of S. S. S., but the persistent use of it brought me out of my trouble safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S. S., and to recommend it to all blood-poison sufferers, sincerely believing if it is taken according to directions, and given a fair trial, it will thoroughly eliminate every particle of the virus. JAMES CURRAN.

CHANGE OF TEACHERS.

Prof. J. D. Shaw Resigned Principalship of Micanopy School.

There has been a change in the principalship of the Micanopy school, which is one of the most important public schools in the county. Prof. J. D. Shaw, who for the past season has been instructing the pupils, was compelled to resign on account of ill health, and he was succeeded by Prof. S. B. Hull of Apopka, who assumed charge Monday.

Prof. Hull comes well recommended, receiving the endorsements of Prof. Lynch, superintendent of instruction of Orange county, and others. He is regarded as one of the most competent educators in the State, and will no doubt give the patrons of Micanopy school a fine service.

Raised His Own Monument.

Since the death of Roy Emerson has been noticed before in The Sun, the writer desires only to call attention to the all-important fact that Roy, though a young man of only twenty, had made the necessary preparation for his departure. He had foreseen the evil and had made ready for it. Or, according to the headline, he had raised his own monument, not chisselled in marble or granit or medal of any kind, no matter how costly or imperishable, but engraved upon the tablet of human affection, which neither the tooth of time nor the rider of the pale horse can destroy, but which will endure when sun, moon and stars have ceased to reign and shine.

However costly, imposing and attractive the monuments erected in the cities of the dead, they do not bear a moment's comparison with those erected in purity of thought, in kindliness of spirit, in generosity of noble impulse, in deeds of filial affection, in loyal devotion to Him who came that men might have life, and have it more abundantly.

Although he is deeply mourned by his fellow-members of the church, although he is greatly missed by his fellow-laborers and companions in the Sabbath school as their secretary; yea, although his absence will be felt by old and young, let the reader bear in mind that all he has been, and all he has done will remain; yea, ever remain as a monument to the saving power of the gospel of the Son of God, and the faithful teaching and careful training by his Christian parents, in whose affectionate remembrance he will live, and by whom, and by all who knew him, he will be admired henceforth and evermore.

He is not dead, the child of their affection,
But gone into that school
Where he no longer needs their poor protection,
But Christ Himself doth rule."

Meets Death Avoiding Train.

Columbus, Miss., March 1.—Henry H. Humphreys, son of the late Captain W. W. Humphreys, one of the most popular young men in the business and social circles of this city, acidentally fell off the railroad bridge while crossing the Tombigbee river and was drowned in the surging waters. Mr. Humphreys fell off the center pier of the bridge. He had gotten off the structure to escape a passing train and in stepping back upon the bridge, fell over backward.

Life a Burden

There are times when life seems a burden—when you are tired, worn-out, have dull pains in the head and a continual feeling of uneasiness. You have no appetite, and your digestion is poor; your sleep broken, and you get no rest.

Little annoyances seem great mountains of trouble, and you are blue, melancholy and given over to gloomy forebodings.

This means low vitality—exhausted brain nerves.

For this condition Dr. Miles' Restorative Nervine is a specific; it is a food for the nerves. It builds up the nervous system, and restores lost energy.

Try it to-day and see if your sleep is not sound and refreshing, and the morrow brighter and more hopeful.

"I am glad to announce that I have recovered my health, as far as my advanced age will permit, as I am 83 years old. My case was very bad; my nerves were all shattered. I suffered much pain and coldness; was so weak and felt so sad and lonely and heart-broken. When I commenced taking Dr. Miles' Remedies I was completely prostrated. I have taken the Restorative Nervine, Heart Cure and Nerve and Liver Pills, and they cured me." MRS. E. C. BAWLBY, Waterloo, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

NICARAGUAN VOLCANO ACTIVE.

Shower of Ashes Fall Upon Ship 30 Miles from Coast.

San Francisco, March 1—For several hours on the night of Jan. 29, a shower of black ashes fell on the deck of the Pacific mail steamer San Jose, off the coast of Nicaragua. At midnight the officer on watch made out the flaming torch of the volcano of Mottomobo, 30 miles inland from Corinto and 50 miles in a direct course from the San Jose and he understood that the fall of ashes came through from the erupting mountain. For several hours the volcano and its flame were in sight. On the return trip, which the San Jose called at Corinto the facts about the eruption were learned. It was also learned that the destruction caused by the volcano's outburst, at first believed by the Nicaraguans to have been extensive, had been remarkably slight. Momotombo was then only smoking, as of old.

I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." HEIRESS MURDERED BY LOVER.

Chicago Man Kills Woman and Then Blows Out His Brains.

Chicago, March 1.—Miss Mary Catherine Mulvell, an heiress, was murdered Monday by Daniel Herman, a policeman, whose love she had refused.

The crime was committed in the most fashionable part of Michigan boulevard, at a time when the avenue was filled with pedestrians and carriages. Herman, after killing the woman, made his escape, and committed suicide in a lodging house at 3165 Archer avenue, by shooting himself through the brain with the same revolver with which he had killed Miss Mulvell.

Herman, who was "a plain clothes man," became infatuated with the girl through hearing her play at St. James Catholic church, where she acted as organist, and had for a long time annoyed her with his attentions, constantly urging her to marry him. Miss Mulvell had refused him repeatedly, and told some of her friends a short time ago that he had threatened to kill her unless she married him. At that time she expressed herself as being afraid to walk the streets, for fear that she might meet Herman, who followed her wherever she went.

To Build Warships for Russia.

Seattle, Wash., March 1.—A. A. Delakoff, special agent of the Russian bureau of finance is here. He says that Russia is to construct a battleship and two cruisers and several torpedo boats in the United States within the next year for delivery after the war in the Orient. His errand here is to visit Moran Bros. shipyard in order to report on its capabilities to his government. He states that there is nothing secret about the matter, and that the construction of the vessels was decided on two months ago.

BIRTHDAYS IN JAPAN.

All the Girls Celebrate In February, All the Boys In May.

The Japanese have a queer way of celebrating birthdays. Instead of a party in June for little Tama and a party in September for little O'Tatsu and a party in December for little Ume there's a party in February in honor of all the little girls and one in May for all little boys. In February every little girl receives from all her grownup relatives and friends gifts of dolls, and besides these dolls her mother takes out of the closet many of the dolls she had when she was a child and some even older dolls that the little girl's grandmother had when she was a little tot, and I dare say there are dolls that belonged to the little girl's great-grandmother and even her great-great-grandmother, quaint dolls in faded clothes of a hundred years and more ago, carefully handed down from mother to daughter ever since. I saw one old doll, about six inches tall, dressed as a daimio, or great lord of bygone times, in gorgeous brocade robes, covered with steel armor of little overlapping plates, just as beautifully made as if for a real warrior. He wore a tiny helmet and carried two tiny swords not as large as matches. You could draw the swords out of their scabbards just like real ones, and they were as sharp as they could be. Well, for about a week all Japan is one grand dolls' tea party. And then the festival is over, and all the best dolls, even the presents to the little girl, are put carefully away, never to be even looked at for a whole year. I don't see how the little Japanese girls can bear that part of it.

Then at the 1st of May comes the boys' festival—the fish festival, it is called. Every family that's lucky enough to have a boy puts up a flag pole in the dooryard, or perhaps several families combine to use the same pole and have it a bigger, handsomer one than one family could afford. On the top of the pole is a gilt ball or else a basket with something bright and tinselly in it. And flying from the pole in the brisk spring winds is a whole string of carp made of oiled paper or cloth, painted in bright colors and anywhere from five to fifteen feet long. Each fish belongs to some particular boy, and the carp is chosen because it is a big, strong fish and not only can swim against the most rapid currents, but in its eagerness to get upstream will leap straight up waterfalls. The gold ball means a treasure, which the carp, leaping and struggling, buffeted by the wind, is forever trying to reach. And the whole thing means that the boy when he's a man will have to battle his way as the sturdy carp struggles up the river. The fishes look so very pretty and gay, flying over his house, and the boy gets so many treats at fish festival time that I don't think he minds even if the carp is a nice little jolly lecture on ambition.—St. Nicholas.

Gave the Ocean Its Name.

"And is that the ocean out there?" asked the visitor from the interior who had just arrived at Atlantic City.

"Yes, the Atlantic ocean," replied the native proudly; "named after our city, you know."—Philadelphia Press.

BREAD IN CHINA.

Curious Sights In Peking—Disposing of Perishable Wares.

Among the many curious sights in China none presents a stranger aspect to our American eyes than the bread peddlers and their methods of disposing of their wares. They carry their stock in trade about with them, either in oval boxes strapped to their backs or in two boxes depending from a yoke across the shoulders or on trays held by a strap hung from the neck and carried in front of them, after the manner in which the pieman of Simple Simon fame is invariably pictured by all orthodox illustrators of Mother Goose. In the city of Tientsin these street venders offer three different kinds of bread for sale. Two of these are twisted in oval shape; the third is a thin, crisp cake sprinkled with seeds of sesame, that magic word which at once recalls to our minds the wonderful tale of Ali Baba and the Forty Thieves. How little we ever dreamed when we listened spellbound in our childhood days to the thrilling account of Ali Baba's adventures that we should ever behold, far less taste, the fateful sesame, the name of which proved so illusive to our hero at the crucial moment when he was confronted by the rock of difficulty! But the peddler's bread is not more curious than his method of selling it, for it is frequently disposed of by raffle, for which purpose he carries three dice, held in a little dish.

In Peking, the capital of the Celestial empire, the bread peddlers generally come from the provinces, mostly from Shangtung. They are called popo sellers. Their street cry, "Yao-chin-mantou?" ("Can I sell you a pound of bread?") is often heard until late in the evening. Their bread is made of wheat flour and baked in hot vapors, distinguished from another kind which is baked in hot pans. They also sell several varieties of popo, or baked goods, a special favorite with the Chinese being an oval oil cake made of the very best flour, usually eaten with pork, sausage or liver.

The Mohammedans in China have a reputation for good bread and evidently wish to be known as pure food advocates, for in order to enable customers to distinguish their wares from those of other venders they ornament their carts or boxes with the Moslem emblem. This consists of a vase containing a branch of the olive tree, on the top of which is perched the Mohammedan cap. On each side of this design is inscribed the motto, "Pure and True Islam." These Mohammedan peddlers also sell a kind of patty filled with a mixture of meat, vegetables, oil and sago. Another of their products, which is called "la shouning ya chakuel," is a large roasted cake or dumpling baked in oil. Many of these Chinese confections are much more appetizing than one would imagine from the description; but, like many foreign dishes, the taste for them must be acquired by cultivation before they can be thoroughly appreciated.

The average Chinaman eats very little bread prepared according to our American formulas; consequently the bakery and confectionery shops are few and far between. Like all other stores in China, they are open in front, with no partition to protect them from the heat or cold or the dust of the streets. Wooden shutters are used to close them up at night. One finds practically the same wares at the bakers' as the bread peddlers offer for sale. Among them is one special kind of cake having the figure of a hare imprinted on it, which is eaten by the Chinese in honor of the birthday of the moon. As soon as the festivities celebrating this anniversary are over the cakes are withdrawn from sale and are not again displayed until the next moon birthday, which corresponds in season to our Easter.—Living Church.

Col. Deming Fitch, wife and granddaughter arrived from Madison, Wis., yesterday on their annual visit to Gainesville. They are the welcome guests of the Odd Fellows' Home. Both Mr. and Mrs. Fitch are looking quite well, and are glad to be here again.

An alarm of fire was turned in from Box 28 at 12:30 p. m. yesterday which summoned the department to the house occupied by Mrs. J. E. Wells and family. The fire, which originated from a defective flue in the kitchen, was quickly extinguished with slight damage.

Information has reached this city of the death of Dr. W. J. Pringle at his home in Sumter, S. C., which sad event occurred on Tuesday morning at 7:30 o'clock, of paralysis. Deceased was well known in Alachua county, and the news of his demise will be received with regret.

Dr. J. H. Colson has secured offices in the Endel Block, rooms 3 and 4, and may hereafter be found there. The rooms will be elegantly fitted and furnished, and will be among the modern offices of the city. Dr. Colson will continue to reside at his former home, West Liberty street.

J. C. Edenton and wife and Mrs. W. H. Edenton of Jackson, Tenn., who are stopping at the Endel Inn, are delighted with Gainesville and its pure air. The latter named lady is a sufferer from asthma, but has experienced so much relief during her stay here that she would like to remain permanently. Mr. Edenton is one of the foremost business men of Jackson and will no doubt make regular visits to Gainesville in the future.

Probably owing to the appearance of Rev. Sam. P. Jones at the Tabernacle, there was only a handful at the opera house to witness the beautiful illustrated lecture, "The Congress of Nations," and "Ben Hur," last night, but those who did attend were very well pleased, and felt that they had been intellectually benefited by attending. The scenes were very good, and for more than two hours held the closest attention of the audience. The rendition of the scenes in "Ben Hur" were especially fine.

Death of Mrs. Turner.

Friends of Mr. W. B. Turner sympathize with him in the death of his beloved wife, which sad event occurred about 1 o'clock Wednesday morning, after an illness of a few days.

Deceased was about forty years of age. She was a member of the Episcopal church, a lady of high Christian character, and was loved by all who knew her.

The funeral was held from the residence, West Court streht, at 2 o'clock Wednesday afternoon, Rev. Francis H. Craighill of Holy Trinity Episcopal Church officiating. The interment was in Evergreen cemetery.

To the bereaved husband The Sun, with other friends, extends sincere sympathy.

READ THIS.

Lexington, Tenn., June 5, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully,
C. R. Scott,
Proprietor Scott House, formerly county chief clerk, postmaster, etc.

A TEXAS WONDER.

D. M. Dean Purchases Four Lots in East Gainesville and Will Live Here.

One of the most important real estate deals transpiring in the city for some time was the recent sale by the Home Investment Company of four desirable lots in East Gainesville to D. M. Dean. The lots are located at the corner of East Church and Franklin streets, and are among the most desirable in the city, being situated on a high elevation, perfectly free from moisture.

Mr. Dean, who is an extensive naval stores operator on the East Coast, became very deeply interested in Gainesville as a place to educate his children, with the result that he purchased these lots, he intends to make his home here. He will at once begin the erection of a large and modern home, and Gainesville will welcome the Deans as permanent residents.

Mr. Dean is a Christian gentleman, and a great believer in schools, churches and all moral advancements.

He stated that Gainesville is one of the most moral cities, with the best educational advantages, he has seen in Florida, and for that reason decided this would be a good place to educate a family.

J. J. Finley Chapter.

The J. J. Finley Chapter, U. D. C., will hold its regular business meeting Thursday afternoon, at the residence of Mrs. J. L. Kelley, at 4:30 o'clock, or immediately after the exercises at the Tabernacle.

THE MILITARY MINSTRELS.

Seats Went on Sale Wednesday Morning and Being Rapidly Sold.

The seats for the Gainesville Military Minstrels were put on sale at Avera's yesterday. They went with a rush, and it is believed that this show will have a record-breaking crowd.

The caste is working hard, and by Friday night will be in fine shape. Every practice the boys are getting better on the drill. The songs will be the very latest.

This minstrel show deserves a good crowd, because it will be the best show of its kind ever given here. The boys who took part in Fales' show say this will be much better. The grand military opening will be the feature. This performance is for the benefit of the East Florida Seminary Athletic Association, and should be well patronized. The faculty and cadets will all be out to see their show.

SOME FINE HOGS.

Spring Park Farm is Stocking Up on High Breeds From Biltmore.

Not content with the stock of this State, Manager Callison of Spring Park Stock Farm is constantly receiving fine and highly pedigreed stock. The last shipment arrived in this city Tuesday, and consisted of five highly pedigreed Berkshire hogs, which will weigh on an average of 309 pounds and average a price of $150 each. They are the finest product of the famous Vanderbilt estate at Biltmore, and were admired by all who saw them.

Mr. Callison has now one of the finest aggregations of registered stock in the State, and our people may expect something great in a few years.

Trains Were Held.

On account of the lecture of Rev. Sam P. Jones at the Tabernacle yesterday afternoon, trains Nos. 139 and 140, Atlantic Coast Line, were held over until 6:30 o'clock last night, in order to give visitors an opportunity to hear the lecture of this great evangelist. Those visiting the city appreciated the action of the railroad, and the majority attended the lecture.

These trains will be held again this afternoon for the same reason, and those who desire may attend the lecture, which will begin promptly at 3 o'clock.

Pinkoson for Marshal.

As will be seen by notice elsewhere, Charles Pinkoson, the present marshal, announces himself as a candidate for re-election at the coming municipal election. RUSSIANS UNABLE TO STAY JAPANESE

General Kuroki Is Forcing the Russian Army Back.

JAPS REPULSED ALL ATTACKS

St. Petersburg Fears that General Kuropatkin Will Not Be Able to Stop Onward March of Mikado's Army. Decisive Battle May End War.

Advices from both Russian and Japanese sources indicate that sharp fighting has been in progress along the Shakhe river for a week, but the rather meager dispatches which havs been pemitted to come through do not make it clear that whole of the extended lines of Kuropatkin and Oyama are yet engaged.

The intiative will be taken by the Japanese. Several heavy attacks were delivered against the Russian left, which apparently has been forced back from its advanced positions with considerable loss, and the Japanese have occupied some villages heretofore within the Russian lines. As usual the reports from Russian and Japanese sources conflict, Kuropatkin claiming to have repulsed the Japanese at several points, while Oyama reports general success.

Tokio, Feb. 28.—4 p. m.—Field Marshal Oyama reports that the Russian batteries at Manpoo mountain, Sahapao and Surfangtai occasionally shell his lines. Small bodies of Russian infantry attacked four Japanese positions west of the Mukden road on Sunday night. They were all repulsed.

The Russians have resumed the construction of defense works in the vicinity of Litapentun. They occasionally shell Chenchiepao.

It is reported that when the Japanese attacked and defeated the Russians Feb. 23, at Tsinketchen, 25 miles north of Simachion the extreme Japanese right, the Russians numbered 12,000 men. The losses are estimated at 2,000. The Japanese losses were slight.

From Kuroki's Headquarters.

General Kuroki's Headquarters in the Field, via Fusan, Feb. 28.—In the fighting on Feb. 22-23 at Tsinketchen the Russians left 203 dead on the field and lost several machine guns. Their casualities are estimated at over 2,000.

News at St. Petersburg.

St. Petersburg, Feb. 28.—7:15 p. m.—The fragmentary official and press reports of the fresh reverse sustained by General Kuropatkin are inadequate to draw a conclusion of the magnitude of General Kuroki's successes against the Russian left, but the public, as usual, is ready to believe the worst and the city is already full of reports that a big disaster has again overtaken the Russian arms, according to which Mukden has been outflanked and is untenable and Kuropatkin is withdrawing from his strong position on the Shakhe river. That such reports are exaggerated is beyond question, but although reticent and seeking to minimize the operations of the last few days the officials of the war office are plainly discouraged at the fashion in which Kuroki is able to drive in and turn the Russian extreme left, his advance columns actually crossing the Shakhe river.

It is admitted that fighting was desperate on Sunady and Monday, while the front was being involved. Field Marshal Oyama evidently being utilized to keep the center and right engaged and prevent Kuropatkin from sending reinforcements to head off Kuroki. Should Kuroki cross the Hun river, the high road to Tie Pass, 40 miles north of Mukden would be open and Kuropatkin's retreat threatened.

Further news is awaited with great anxiety.

Anything like a decisive Japanese victory now would probably end the war.

General Kuropatkin in a dispatch to Emperor Nicholas dated today says:

"Ten attacks made by two Japanese battalions and some cavalry west of the village of Tansintong have been repulsed. The Japanese renewed the attack in the morning of Feb. 27 and were again repulsed. They left a hundred corpses in front of our positions. The Russian loss was six men."

TWO NEGROES ARE HELD.

In Alabama Town for the Murder of Miss Bell Bloodworth.

Decatur, Ala., March 1—Detective C. H. Heflin, of Atlanta, arrested John Collins and Harvey Smith, negroes, here today for the murder of his first cousin, Miss Bell Bloodworth, on the night of Jan. 21.

Collins broke down when arrested, and said Smith did it. Smith refused to talk. Bloody overalls containing a notebook with Collins' name on it were found near the scene of the crime, and Collins denied his guilt, but the officers say they have sufficient evidence to convict both negroes.

They were taken to Birmingham today for fear of a mob. After returning from her father's store, after carrying his supper to him about 6:30 o'clock, she failed to arrive home and a search was made. Her lifeless body was found within a block of her home at 10 o'clock the next morning.

HELEN POST GETS NEW TRIAL.

Faith Cure Operator, After Conviction, Gets Another Chance.

New Orleans, March 1.—Helen W. Post will have a new trial. She is the defendant in a criminal case brought before the United States court, southern district of Florida, on four indictments for using the mails for fraudulent purposes,

She was found guilty and appealed the case to the United States circuit court of appeals and the latter today reversed the judgment and remanded the defendant case for a new trial.

The defendant operates a mental science, or faith cure, institution at Sea Breeze, Fla., and she was criminally charged before the federal courts.

The decision covers 20 typewritten pages, and is said to be a precedent.

ANCIENT STATE MONEY FOUND.

Sheriff of Sumter County, Ga., Makes an Unexpected Discovery.

Americus, Ga., March 1.—Sheriff E. Bell stumbled unexpectedly upon a small fortune, seemingly, this afternoon.

While examining a box containing old deeds and papers, the property of his father, the late Alfred C. Bell, he found a large package of money issued by the state of Georgia in the sixties, and aggregating several thousands dollars.

It is entirely different from other state money of that period, and prominent attorneys this afternoon advised Sheriff Bell that his bills were redeemable at their face value, with 6 per cent interest from date of maturity, 45 years ago.

The manuscript is in good condition and is to be placed among the most valuable in American literature. Inhabitants Desert Colorado Towns.

Denver, Col., March 1—A News special from Flagstaff, Ariz., says that the towns of Holbrook and St. Johns, situated in the Apache valley, have been almost completely deserted by their inhabitants who fear that the immense dam of the St. Johns reservoir company will break from the strain of flood waters due to the almost incessant rains for many weeks past.

THIS COMPANY PROSPERS.

Florida Fertilizer Company Selling Quantities of Goods.

The people of Gainesville are proud of such manufacturing enterprises as the Florida Fertilizer Manufacturing Company, and are always glad to learn that such institutions are prospering.

In conversation with President Wooley of this company yesterday it was ascertained that the company is enjoying a fine business, the shipments so far this season amounting to about 20 per cent over the same period last year, notwithstanding that last year was the most successful ever enjoyed by the company.

This company employs a large number of men, and several thousand dollars are paid out monthly, all of which is distributed among the Gainesville merchants.

This company ships its products to all parts of the State from Pensacola to Key West, and the fact that the same parties are customers every year is the best evidence that the goods are all that is claimed for them.

CHANGE OF TEACHERS.

Prof. J. D. Shaw Resigned Principalship of Micanopy School.

There has been a change in the principalship of the Micanopy school, which is one of the most important public schools in the county. Prof. J. D. Shaw, who for the past season has been instructing the pupils, was compelled to resign on account of ill health, and he was succeeded by Prof. S. B. Hull of Apopka, who assumed charge Monday.

Prof. Hull comes well recommended, receiving the endorsements of Prof. Lynch, superintendent of instruction of Orange county, and others. He is regarded as one of the most competent educators in the State, and will no doubt give the patrons of Micanopy school a fine service.

Raised His Own Monument.

Since the death of Roy Emerson has been noticed before in The Sun, the writer desires only to call attention to the all-important fact that Roy, though a young man of only twenty, had made the necessary preparation for his departure. He had foreseen the evil and had made ready for it. Or, according to the headline, he had raised his own monument, not chisselled in marble or granit or medal of any kind, no matter how costly or imperishable, but engraved upon the tablet of human affection, which neither the tooth of time nor the rider of the pale horse can destroy, but which will endure when sun, moon and stars have ceased to reign and shine.

However costly, imposing and attractive the monuments erected in the cities of the dead, they do not bear a moment's comparison with those erected in purity of thought, in kindliness of spirit, in generosity of noble impulse, in deeds of filial affection, in loyal devotion to Him who came that men might have life, and have it more abundantly.

Although he is deeply mourned by his fellow-members of the church, although he is greatly missed by his fellow-laborers and companions in the Sabbath school as their secretary; yea, although his absence will be felt by old and young, let the reader bear in mind that all he has been, and all he has done will remain; yea, ever remain as a monument to the saving power of the gospel of the Son of God, and the faithful teaching and careful training by his Christian parents, in whose affectionate remembrance he will live, and by whom, and by all who knew him, he will be admired henceforth and evermore.

He is not dead, the child of their affection,
But gone into that school
Where he no longer needs their poor protection,
But Christ Himself doth rule."

PASTOR.

Mrs. Beck Dead.

The people of Campville are sorrowing over the death of Mrs. Elizabeth Beck, the sad demise of whom occurred Friday in the ninetieth year of her age. Mrs. Beck was a noble, Christian lady, and as long as she was in good health an earnest church worker. She was buried at Campville cemetery Saturday.

A sad conclusion of this affair was the death on Monday of Mrs. Madison Beck, a daughter-in-law of the lady who died Friday. She was about forty-five years of age, and was possessed of an affectionate nature. She was buried Tuesday.

The surviving relatives have the sympathy of The Sun and other friends.

The Sun, with other friends, extends sympathy to the surviving family.

APPLICANTS MUST SUPPLY PHOTOS

This Rule Will be Enforced by Superintendent J. L. Kelley.

MUST BE GOOD LOOKERS

If They Would be Sure of a Job Teaching the Young of Alachua—Looks Will Figure on the Same Level With Efficiency in Future.

There is a law—an unwritten law—in the Board of Public Instruction that applicants for teachers from others than residents of Alachua county be required to file their photograph with the application. This is not an order of Superintendent Kelley, whom it must be admitted admires with all his heart the likenesses of handsome young ladies, but an informal order and instruction from the board, which has been in effect for some time—a great many months before Dr. Kelley assumed the important position of superintendent, and it is good-naturedly claimed that the order emanated at the suggestion of former Superintendent Holloway. At any rate, it is an unwritten understanding, and Dr. Kelley states that he proposes in future to enforce it.

Teaching school is indeed a peculiar profession. However efficient a teacher may be, the patrons of the school prefer a good-looking instructor, whom they declare will command a better prestige. In negotiating for a teacher they will invariably ask of the superintendent what kind of a looking person the applicant may be, and in a great many cases formerly the superintendent has been unable to answer. Dr. Kelley, however, proposes in future to be in position to meet these conditions, and will have the photograph on file with the application.

"You know it's peculiar but it's true that looks have a great deal to do with the employment of teachers," remarked Superintendent Kelley. "A fine teacher who is not favored with form and grace and beauty does not stand ordinarily half the show that some better looking person might have with half the training and ability."

Dr. Kelley states that he will insist in future that all applications beyond the limits of the county be accompanied by photographs, and no objection will be made to photographs of applicants within the county.

"There is another thing to which I desire to call the attention of teachers," remarked the Superintendent, "and that is, some teachers must improve in penmanship. It would surprise you to see the miserable writing of some of the most efficient teachers in the employ of the county. I will insist that in future applicants and teachers shall be proficient in this branch, which has been sadly neglected, for I do not believe it practical for teachers to teach successfully something which they do not master themselves. I know of several instructors who are eminently proficient in other branches, but they must 'brighten up' if they want to hold a job in Alachua county."

Dr. Kelley states that the board has continued the arrangement with East Florida Seminary for the attendance of teachers at the normal, which begins on the 13th inst. and continues for two weeks, and is very anxious that all teachers who can do so, attend. This will have a great deal to do in the matter of appointment of teachers for the coming season.

Bodies Not Yet Recovered.

Blakely, Ga., March 1.—After a week's search the authorities of the Central railroad have been unable to find the bodies of Engineer Pate, Extra Engineer Dobbins, and Fireman Batese, who were on the engine of the passenger train which ran into the Chattahoochee river at the drawbridge near Columbia, Ala., on the 19th instant. The wrecked locomotive and tender have been raised. The government dredge boat lent valuable assistance. The railroad officials who have been present at the wreck since its occurrence assisting in the search returned home today.

THE GRAND JURY REPORT

One True Bill Returned—Gus Mashby Arraigned for Murder and Pleaded Not Guilty—M. L. Sherman Guilty of Forgery and Was Sentenced.

Pursuant to adjournment of Friday of last week, the circuit court of the Eighth Judicial Circuit for Alachua county convened at 10 o'clock Monday morning, His Honor Jude Wills presiding.

The first business to come before the court was the report of Sheriff Fennell to the effect that the venire for jurymen for the second week of the term had been properly executed, and from this venire the following jurymen were sworn for the present week: H. The next case called was that of the State vs. Gus Mashby, indicted for murder in the first degree. Prisoner was arraigned and pleaded not guilty.

The grand jury came into open court and reported one true-bill.

In the case of State vs. Will Easterlin, appeal denovo, case dismissed by motion of State's attorney, with the provision that defendant pay all costs.

By direction of the court, a special venire was issued by the clerk to complete the jury; also, a special venire to try the case of the State vs. Gus Mashby, which was delivered to and executed by the sheriff.

DESERVED PROMOTIONS.

Dillon Graham to Be Made Agent and G. E. Hurtel Cashier Express Office.

The resignation of H. T. Dillon Graham, for the past eighteen months the efficient cashier, has been promoted to be agent, while Freight Clerk George E. Hertel, another faithful employe, will act as cashier. The appointment of freight clerk has not been announced.

THIS WAS A "BUSTER."

Hon. Henry S. Chubb Received Letter Five Feet Eight Inches Long.

"I tell you, I am getting to be a popular proposition," good naturedly remarked Hon. Henry S. Chubb, receiver of the United States land office, Saturday, when he unrolled a letter measuring five feet, eight inches, closely written.

This letter was received by Col. Chubb, as chairman of the Republican State Central Committee, and in whom aspirants for office manifest a great deal of confidence, from a certain candidate for a postmastership in a small town in West Florida. It appears that there had been some opposition to the recommendation or appointment of this candidate, and the letter was filled with reasons why the opposition existed, as well as a long list of the qualifications and history of the applicant, stating why he should be "the favored one." As a matter of course Col. Chubb would not give the author of the letter, neither would he make its contents public, but intimated that this was the sense of the epistle.

Col. Chubb proposes to take a half-day off at some future time and absorb every sentence of this interesting and appealing document, and will weigh the contents with that consideration which will mean justice.

The Colonel's Waterloo.

Col. John M. Fuller of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and although I tried my family doctor he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by all druggists, at 50c a bottle.

THE UNION SERVICE.

Services at Tabernacle Sunday Evening Largely Attended.

Owing to the absence of Dr. Clarence B. Strouse, who had consented to preach, from the city Sunday, the service was conducted by the pastors of the Presbyterian, Methodist and Baptist churches, the pastors of the respective churches affiliating in the service.

The meeting was presided over by Rev. Thos. P. Hay of the Presbyterian Church, who incidentally delivered a fine talk of about fifteen minutes. He was followed by Rev. T. J. Nixon of the Methodist church, who spoke with great earnestness, and in whom the large congregation was deeply interested. The benediction was pronounced in an impressive manner by Rev. S. B. Rogers of the Baptist church.

The service was preceded by an excellent song service of a half-hour's duration, and during the evening Mrs. Munford rendered several delightful sacred solos.

Altogether the evening was a most interesting one, and those who attended felt glad they were present.

JUDGE SWAYNE IS ACQUITTED

Of All Twelve Charges by U. S. Senate.

PARTY LINES STRICTLY DRAWN

First Impeachment Trial for Many Years Ends in Victory for Accused. Republican Senators Congratulate Judge Swaye.

Washington, Feb. 27.—The Senate took up the case of Judge Swayne at 10 a. m. and each charge was voted on separately.

The first article, for collecting $10 a day expenses at Waco, Tex., defendant was declared not guilty, the vote being on party lines—49 to 33.

The second, for similar offense in other Texas points, the vote stood 52 to 32 for acquittal. The third article, a similar charge, resulted the same.

Article four, charging unlawful use of private car of Jacksonville, Tampa & Key West Railway, then in receiver's hands, the vote for acquittal was 69 to 13. Article five, a similar charge, was carried by the same vote, Democrats who had before voted guilty changing their vote.

Articles six and seven charging non-residence, resulted in a vote of not guilty.

Articles eight, nine, ten, and eleven, relating to unlawful imposition of fines for contempt of court, were all decided by a vote of not guilty.

Article twelve, a similar charge in the case of W. C. O'Neil, resulted in a vote of not guilty, and a resolution was forthwith adopted acquitting Judge Swayne.

He took the decision calmly and was warmly congratulated.

Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at all drug stores.

SUNDAY TRAGEDY AT TURPENTINE CAMP

One Negro Fills Another With Contents of Shot Gun.

DEATH WAS INSTANTANEOUS

Men Were About to Engage in a Game of Chance When an Altercation Occurred—Murderer Arrested, and is Now in Gainesville Jail.

Because of a drunken row near the turpentine still of E. W. Millican, Waldo, at dawn Sunday morning, Squire Perry is now in his grave and the assassin, Isham Anderson, is in the Alachua county jail, with strong steel bars between himself and liberty. Both men worked at the still of Mr. Millican. From the best information obtainable, it is stated that the two men had been drinking blind tiger or some other kind of "booze" during Saturday night, and were very quarrelsome. About daylight they, with other negroes, retired to a vacant shanty, ostensibly for the purpose of engaging in a game of "skin"—a favorite pastime with the negroes of this class.

Shortly after arriving at this hut the two men became involved in a quarrel over a trivial matter, when it is said Perry suddenly pulled a pistol and fired at Anderson. Anderson lost no time in discharging the contents of a shot gun into the body of his aggressor, and death was instantaneous.

The incident naturally caused a scene of great excitement and animation among those who witnessed the tragedy, with the result that they scattered in every direction. Anderson made no attempt to escape, and a short time after the killing was arrested by Mr. Millican and turned over to the custody of Deputy Sheriff Kennard. The officer brought his prisoner to Gainesville Monday, where he is now in jail.

Both men were old employes of Mr. Millican, having been with him six or seven years. Anderson was a a stiller, while the dead man was employed chipping and dipping boxes.

Anderson declares he killed Perry in self-defense.

MADE A BIG THING.

J. E. Futch Sold 3,000 Boxes of Oranges From Wauchula Grove.

J. E. Futch of Alachua, one of the leading merchants of that thriving town, after spending Sunday with his family here, departed yesterday for Wauchula, where he has handsome grove property.

Mr. Futch stated that his grove yielded for the season just coming to a close a few boxes over three thousand. Most of the fruit was sold on the trees and brought good prices. It was all of fancy varieties, bright and of fine flavor.

The recent cold weather in this State did not affect the Futch grove materially. The owner states that he probably lost between 100 and 150 boxes, but the trees were not injured, and on several trees the leaves did not even shed. He has great confidence in the future of South Florida as an orange growing section, and declares that with reasonable precaution it is impossible to sustain damage from cold.

Prominent Mason Here.

Among the prominent visitors to the city yesterday was W. S. Ware of Jacksonville, Grand Secretary of the Grand Chapter of Masons of Florida, who paid Gainesville Chapter an official visit Monday evening. Mr. Ware was greeted by a large number of fellow craftsmen and the evening was spent in a most instructive and enjoyable manner. He took occasion to pay Gainesville Chapter a high compliment regarding every condition of their lodge.

Mr. Ware is a prominent factor in the upbuilding and sustainance of Jacksonville's manufacturing interests. He is a large stockholder in the Knickerbocker Ice Company, which is one of the largest plants in the South, having a capacity of 200 tons per day. He expressed great satisfaction at the rapid growth of Gainesville, which he good naturedly declared had grown "from a village to a city within five years."

WAS THE LAST DAY.

Quail Shooters Made Best of Tuesday's Limit to Kill Birds.

The sportsmen of this section, realizing that Tuesday was the last day on which they could enjoy themselves shooting quail under the strong arm of the law, turned out in full force, with the result that the fields were filled with hunters, a great many of whom returned to the city loaded down with fine birds. The season closed with the setting of the sun of Tuesday.

The quail have thrived wonderfully in Alachua county this season, and there have been a great many of them. The hunters, notwithstanding that they have killed thousands, state that there are yet an abundance, but they will not be permitted to shoot them until the next season is on. They must turn their attention to other game.

STILL AT LARGE.

William Hughes Escaped From Guards, Still Has His Liberty.

William Hughes, the negro sent up from Gainesville for selling liquor in a dry county, and who escaped from the guards at McDonald's camp Friday of the past week, is still at large, but the officers are aware of his whereabouts and can apprehend him at any time.

Hughes has been very obstinate ever since his confinement. He has made himself very unpopular among his fellow-prisoners, all of whom openly declare they are glad he is gone, and hope he will never be captured. Mr. Godwin, however, declares he will not give Hughes the satisfaction of remaining at liberty, and will soon have him back in camp, when he proposes to make him pay for his insubordination.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Mrs. J. W. Lang and Mrs. S. Frake

Of all the diseases known, with which women are afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing down pains, urine too frequent, scanty or high colored, producing scalding or burning, or deposits like brick dust in it; unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running down the inside of her groin, she may be sure her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham:—
I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the womb. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling I could hardly walk across the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all the bad symptoms have disappeared.
I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it.

Mrs. J. W. Lang, of 626 Third Avenue, New York, writes:

Dear Mrs. Pinkham:—
I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it; and it has cured me when everything else had failed. I have recommended it to lots of people and they all praise it very highly.

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

The Culture of Potatoes, and Growers Confidently Anticipate a Big Thing Financially—Death of an Old and Respected Citizen.

Santa Fe, Feb. 28.—On the morning of the 25th inst., this community was saddened by the death of one of its old and respected citizens, W. W. Pope, who succumbed to an attack of pneumonia after an illness of five days. He was in his seventy-third year, a veteran of two wars, the Indian War in 1858, and the war between the States in the spring of '62. He left his devoted family and enlisted in the Seventh Florida Regiment and served until the close of the war. He was a member of the Gainesville camp of the Confederate Veterans. His remains were interred at the New Hope cemetery Sunday, Elder Johnithan Dukes officiating. He was a member of the Baptist church. He leaves three sons and one daughter and a large circle of friends and relatives to mourn his death.

The scarcity of labor is causing many farmers to cut down their acreage here, but judging by the quantity of fertilizer that is being delivered, one would come to the conclusion that the acreage of cotton would be large.

J. M. Hall of Camden, S. C., is visiting relatives here. He expresses himself as being very favorably impressed with this community.

F. H. Cason departed for Georgia last week, where he expects to enter the telegraph school at that place.

Miss Cylla Kennedy, the efficient assistant teacher, visited the Central City Saturday.

The public school is in good shape, though owing to the bad weather last month the average was not as good as desired; but it was no fault of the teachers, as the patrons are well pleased with them.

The Santa Fe Produce Company has planted thirty-five acres in potatoes on their farm southwest of the station.

T. E. Williams, Jr., is the boss bird hunter in this community. He is a dead shot, and does not fail to bag the largest quantity of game.

Prof. P. D. Cox, the Santa Fe photographer, is turning out some fine work. He is being well patronized.

The T. S. Williams Potato and Melon Company has finished planting one of the largest crops of potatoes that has ever been planted in the county. They are now planting three hundred acres in melons.

The soil in this section is said to be among the finest in the South for the culture of potatoes, equalling in every way the famous Hastings lands.

The Baird saw mill is making good time now, but are not able to fill orders as fast as wanted.

There is talk of raising the salary of the President to double the amount he draws every pay day now, on the theory that some of the rulers of foreign countries are paid five times as much. The war of 1776 was brought about to relieve this country of just such high-salaried figure-heads, and he has the alternative of not accepting the office the second time, if he finds the salary too small to subsist on. There are plenty of men who would do well on the $50,000 a year the President draws.

NO CAUSE FOR ALARM.

There need be no cause for alarm that Gainesville will overdo herself in the building line. Many new residences are being erected, but they are for occupancy by the owners. During the present winter many men with families have decided to make this city their home. People from the North who have come here and seen for themselves are satisfied to locate here. They have satisfied themselves that there are several good reasons for locating here.

First and foremost, is the one principal reason, that by a perusal of the topography of Alachua county, it will be seen that it is the highest point in the State—the Great Divide, as it were, East and West.

In the second place, there is no denying the fact that it has the best drinking water in the State, an item that is of more importance than many would imagine, as it is absolutely free from malaria.

Third, it has a class of people that is equal to any city in the North or South—law-biding, whole-souled, and of a class that respects the opinions of all who differ with them.

We could go on still farther and keep within the bounds of trust, if it were necessary; but another year will show an increase in population to prove that every new residence that has been erected will be needed. The man who is looking for a home and comes to Gainesville may then seek farther if he is not satisfied at first, but will return here after he has inspected other portions of the State.

There will be many additions to our population from the North in another year. Watch us.

WOMEN ON SCHOOL BOARDS.

In Jacksonville there was recently inaugurated by The Florida Sun a crusade against filthiness in and about the public schools of that city. The Sun awoke such keen interest in this fight for cleanliness in the public schools that The Metropolis joined in the crusade and The Times-Union gave columns as a news feature to describe the interesting developments.

One of the interesting outcomes of the campaign is the suggestion from prominent men and women of that city that the Constitution of the State of Florida be amended so as to provide for representation for women on the county boards of public instruction. This is the most interesting question which has arisen in connection with the matter. There was some deep interest, it appears, in Jacksonville over the condition of the Riverside school, and, judging from what was reported of its sanitary condition, there ought to have been, but this matter of providing for women on our school boards is of vast importance to the State.

Women are naturally interested in the public school. They are interested to the extent that it is in the public school that the mother sees her child for a considerable part of his career under her guidance. It is therefore proper that the mother should be heard in matters of education and that her advice and her counsels should be heeded. But who will say that this is not the case under the present system? Is it not a fact that in Florida there are two women to one man connected with the schools of the State? The connection these women have with our schools is direct, while that of the school boards are indirect to a certain extent. The school teacher is on the ground and in charge of the children and the school, while the school board is absent while directing the general State plan of the work. It is therefore true that the women of the State have as much to do with the schools as the men, and to them is largely due the credit or discredit for the results.

In the South any suggestion looking toward the entering into politics of the women of our land will be rebuked. It ought to be. It is not the proper sphere for the women to enter. Her line of duty is not in wielding, but more in directing political power by the offices which she performs in the home.

There might be something said, too, against the care and the wisdom which the women of Florida or any other State might exercise in political bodies. As a rule, women are impulsive, and in a great many instances it has been shown that they lack that executive and legislative ability which their protectors have been given by the laws of nature which gave to man the responsibility of government.

There is an illustration of this in the case in point. The campaign against the condition of the Riverside school in Jacksonville was waged because of the condition of the water closets more than any other cause. They were unsanitary and the teachers in charge had not prevented or attempted to prevent the presence of obscene writings on the walls. The women of Riverside took the case in hand. They met and decided to take immediate control. The immediate effects of their crusade were refreshing. Under their direction the janitor was put to work and the school premises were made clean and presentable, as well as sanitary. But in their haste to present themselves at a meeting of the mothers of the school on the day they were engaged in this work the committee walked away from the school grounds with the keys of the outbuildings. An entire day for three hundred or more children at the school without the privilege of attending to their personal needs was the result.

The bare statement of this fact by one of the Riverside mothers who protested against the action of the committee in carelessly taking the keys with them and failing to return them when they found that they were needed at the school is said to have silenced any further discussion of the matter in Jacksonville.

The suggestion to permit women to enter politics, even in the interest of the desire of some of them to have charge of public school matters, will not be met with a popular response in this State. It ought not to be. Certainly the women of Florida would oppose the dragging of their sex into politics. So far as the schools are concerned the women's duties are plain. It is their privilege to inspect the school room, the premises, and to protest as vigorously as women can when school matters are not being conducted as they ought to be. They should not seek, and do not seek, to enter the mire of politics in order that they may be placed at the head of the school system of their State. It might prove the beginning of a general entrance into the arena of politics and a consequent destruction of the wholesome influences which women in their position wield.

TURPENTINE EXPERIMENTS.

The old system of boxing Southern pine trees for the production of turpentine and resin has very greatly reduced the pine timber wealth of the Southern States. Three years ago the Bureau of Forestry determined that something should be done to eliminate so destructive a method of procuring naval stores. Its three years of experiments towards this end have demonstrated that a new system of turpentining, which requires the use of earthen cups and metal gutters, not only greatly conserves the life of the timber-tapped, but also gives an increased yield of resin, and therefore a greater profit than is possible by boxing. The box method and the new cup and gutter method of turpentining are fully described and illustrated in Bulletin No. 40 of the Bureau of Forestry.

While the new system is not yet in use by all turpentine operators, its application is extending as rapidly as the necessary equipment can be secured. At present there is but one company supplying the kind of cups and gutter iron required. It is hoped, since the demand for this material is very great, that in the near future the supply will be sufficiently increased to enable turpentine operators to procure the needed equipment.

While, in the work just completed, the Bureau of Forestry has performed an important service to the turpentine industry, it feels that a still more conservative method of turpentining can be found which, consistent with a maximum yield of turpentine, will inflict the smallest possible injury upon the trees. With this in view, the bureau has begun an entirely new line of field experiments, in order to determine to what extent the wound now made in tapping the trees can be lessened.

Through the public-spirited and cordial co-operation of the Hillman-Sutherland Land Company of Jacksonville, Fla., a stand of about 40,000 pine trees in Clay county, Florida, with other facilities, have, without cost to the government, been placed at the disposal of the bureau for experimental purposes.

The principal experiments now set on foot comprise the practical working of a number of different turpentine crops. One set of trees will be used to determine the best width of face to be cut on trees of different diameters.

Another set of trees will be used to demonstrate the rate in height at which weekly chippings should proceed in order to stimulate a flow of resin. It is believed that the weekly chipping now practiced cuts away in height at one time too much of the living wood. At present this upward chipping amounts to about eight inches every year, and it is thought this can be reduced one-half or two-thirds. Such a saving in face of height will permit a considerable increase in the number of crop years, which should give a much increased total yield of resin, as well as reduce the demand upon the area of pine forests. There will also be an economy for operators in not having to move their equipment from one set of trees to another as frequently as is the case at present.

Still another set of trees will be devoted to finding out how deep toward the center of the tree each streak should be chipped. Under the present practice, it is believed that an unnecessarily deep cut is made, thereby greatly reducing the vitality of the tree and consequently its capacity to produce resin.

The Standard Oil product does not seem to allay the tempest when poured on the troubled waters.

THE CHAUTAUQUA OPENING PROGRAM

Rev. Sam P. Jones on "This, That and the Other."

DR. STROUSE CALLS TO ORDER

A Large Audience at the Tabernacle to Inaugurate the Second Assembling of the Florida Winter Chautauqua. Drs. Strouse and Blackstone Extend a Hearty Welcome.

All nature seemed so beautiful and the day so bright, that the large concourse of people who came out yesterday afternoon to be present at the opening of the second session of the Gainesville Chautauqua, were in accord, and smiled even when the Rev. Sam. P. Jones—of Cartersville—opened up an old jar of preserves that they had sampled on previous occasions.

The Tabernacle was well filled with an audience that came to hear and cheer the opening remarks of Rev. Dr. Strouse, who has worked with much devotion to the cause he espouses, and when he began he gave the credit to Dr. Davidson for the excellent program so auspiciously opened. At the conclusion of his earnest prayer he called on Dr. W. E. Blackstone, who mentioned the fact that from one Chautauqua started in this country but a few years ago, there were now 260, and that they were held for the purpose of pleasing and instructing the people. He thought it was not God's plan that the devil should have all the amusements. He thought there was no reason why we should not have cheerful Christians, and live a heavenly, joyful life. The chautauquas are intended for enjoyment as well as instruction. He believed we were going to have a good Chautauqua, and spoke highly of the attractions, many of which would be of the highest order.

After Dr. Blackstone had taken his seat the Rev. Sam P. Jones—of Cartersville—stepped to the front of the rostrum and began to say "We come from the—(applause)—passing from the sublime to the ridiculous, although the transition may take your breath away, this audience reminds me of Utah—about seven women to one man." He then paid his compliments to the sisters and said he loved them all as much as his wife would permit. In speaking of chautauquas, he said they were having a large and healthy growth, about 40 a year being the increase, and that Iowa had 32 and Illinois 30. That they were multiplying and were a necessity, as the people were tiring of the county fair and Methodist camp-meeting, as there were no more big pumpkins for the fair and not enough religion for the camp-meeting. He did not think that science and religion went well together.

On the divorce question he said he kept quiet. He didn't believe God joined many of the people together these days. He thought the devil did most of it. He said he would like to see the time when any man or woman could get a divorce by walking into a court room and asking for it; but if either got married again they would be sent to the penitentiary for life.

God's eye has been on the world ever since he rolled it into space, he said, and he believed in faith—walking in the faith, and being saved by faith, and not by sight. That you should not see to believe.

As he had to speak again he said he would not tell all this time, as the people would not come again, and he closed with a very pleasing smile and request to hear the rest later.

Dr. Strouse made the announcements and the meeting closed, all feeling pleased to see so many on hand at the first of the series of meetings and entertainments.

Today's Program.

The program for today begins with a lecture at 10:30 a. m. by that popular platform speaker, Dana C. Johnson, his subject being "Thomas Jefferson." Mr. Johnson is a pleasing talker.

There are two numbers on the program for the afternoon. At 2 o'clock Miss Bed-Oliel will give her picturesque Oriental entertainment, with a number of ladies attired in the costumes of the East. At 3 o'clock Rev. Sam Jones will deliver his lecture, "Hot Shot for Speckled Birds."

At the evening exercises, beginning at 7:45, Miss Charlotte Cooke will render several violin soles, to be followed by Lou J. Beauchamp in his lecture, "Taking the Funny Side."

The evening program on the opening day consisted of violin solos by Miss Cooke, and the entertainment, "Life in Palestine," by Miss Florence Ben-Oliel, assisted by nineteen ladies dressed in the picturesque costumes of the Eastern countries, followed by a lecture by Sam Jones, the irrepressible.

Both lectures were of much interest, and as a prelude to the regular program, Mr. Dana C. Johnson made a few remarks and Mr. Jones gave a random talk, while the people were waiting for the ladies to array themselves.

Dr. Stronse took occasion to urge all to be promptly on hand at 10:30 this morning to hear the lecture on "Thomas Jefferson."

By the Grand Jury in Open Court Wednesday Afternoon.

PROGRESS OF THE COURT

SOME FINE HOGS.

Spring Park Farm is Stocking Up on High Breeds From Biltmore.

Not content with the stock of this State, Manager Callison of Spring Park Stock Farm is constantly receiving fine and highly pedigreed stock. The last shipment arrived in this city Tuesday, and consisted of five highly pedigreed Berkshire hogs, which will weigh on an average of 309 pounds and average a price of $150 each. They are the finest product of the famous Vanderbilt estate at Biltmore, and were admired by all who saw them.

Mr. Callison has now one of the finest aggregations of registered stock in the State, and our people may expect something great in a few years.

Pinkoson for Marshal.

As will be seen by notice elsewhere, Charles Pinkoson, the present marshal, announces himself as a candidate for re-election at the coming municipal election. Mr. Pinkoson has made a most impartial and competent officer. He is a young man of fine moral habits, has served his constituents well, and will no doubt receive a fine vote as a token of the confidence of the people.

CAPTAINS ON MANY SEAS NEVER WITHOUT PE-RU-NA.

"Give Me My Compass and Pe-ru-na and I Will Steer Clear of All Wrecks."

Pe-ru-na Known and Praised on Land and Sea.

Capt. L. T. Carter, 123 10th Ave., Pensacola, Fla., writes:

"A sick sailor is a pretty helpless man. I have found that Peruna will do more to restore one than any other medicine I know, and I have carried a couple of bottles on board for many seasons.

"Seven years ago Peruna cured me of bronchial trouble in a few weeks and gave me such new life and nerve force that I certainly believe in telling you of it.

"Give me my compass and Peruna and I will steer clear of wrecks of all kinds and land in port safe and well with vessel and men."—L. T. Carter.

Capt. E. A. Watson, M. E., 48 Elizabeth street, Ottawa, Ont., writes:

"Peruna has my heartiest endorsement. If there is any place that you are helpless when ill, it is on board a steamer, at sea, miles away from any assistance.

"Sometimes two or three of my men would be sick at one time and seriously cripple the force, but since we have learned of the value of Peruna, by taking a few doses they recuperate very quickly.

"We use it for colds, lung trouble and kidney diseases, and have also found it very fine for la grippe.

"Peruna is always one of the most important supplies of my steamer."—E. A. Watson.

With a bottle of Peruna on board sailors have a remedy on which they can rely.

Commodore U. S. Navy.

Commodore Somerville Nicholson, of the United States Navy, in a letter from 1837 R street, N. W., Washington, D. C., says:

"I unhesitatingly recommend Peruna to all persons suffering from catarrh."—S. Nicholson.

If you do not derive prompt and satisfactory results from the use of Peruna, write a force to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

STOLE MONEY AND SUFFERED ARREST

A Slick Diamond Thief and Swindler Believed to be in Toils.

STOLE FROM COLORED MAN

At Waldo, and After Fleecing Him Out of $110 on Flattering Pretense Was Arrested in Attempt to Escape—Costly Diamonds Found on Person.

S. Stephens, through his desire to beat people wherever he happens to turn up, is in the toils of the law, and it rested with the citizens and officers of Gainesville to apprehend him and bring him where he belongs.

The arrest was one of the slickest pieces of engineering, with one of the slickest rascals, apparently, in the State, as a victim.

How Game Was Worked.

On Saturday of the past week S. Stephens, a well-dressed, sleek negro man, appeared in Waldo, and represented himself to be the head waiter of the Ponce de Leon Hotel in St. Augustine, who was out looking for waiters. He met J. Wesley Jones, an industrious and hardworking farmer of the Waldo section, and laid his plans open to him.

"I am here looking for waiters for the Ponce de Leon Hotel, St. Augustine," he said. "I am getting tired of these frisky city 'niggers,' and I want somebody with a little manners to come and work for me."

Stephens offered Jones $18 a week and his board, and assured him that he would be getting from $3 to $5 a day tips from the rich Northern folks who came down to spend the winter at the Ponce de Leon. Jones felt that he had cinched a good thing, and, notwithstanding that he was doing tolerably well at his little farm near Waldo, the proposition looked good to him, so he told Stephens that he would accept it.

But that was not all. Stephens informed Jones that, inasmuch as he had experienced so much trouble in retaining help, he required a cash bond of $200 as a guarantee that he would remain through the season, stating that if he did so the money would be returned to him when the hotel closed. Jones replied that he did not have the money at that time, but would meet him in Gainesville on Tuesday and pay in the required amount, which was agreed to.

Jones Met His Man.

Jones, in compliance with his promise, and with a fat job staring him in the face, with the opportunity of boarding at such a grand hostelry as the Ponce de Leon, if he was compelled to eat in the kitchen from what the white folks left, met his man here Tuesday morning. The meeting was a congenial one, since each felt that the other fellow would back out.

Going to the bank and drawing every penny to his credit, Jones and his new employer walked to the postoffice. At one of the desks in the front of the office Jones pulled from his pocket a roll of bills amounting to $110 and told Stephens that was all the money he had in the world. Stephens generously (?) pulled $80 from his pocket, offering that as a loan, and told him when they reached St. Augustine he would secure the deficiency to make up the $200. Before the eyes of Jones he placed the money in an envelope, sealed it up, and stated that he proposed to let him keep it until he reached his destination, but suggested that he write his name on the envelope before placing it in his pocket. The two negroes approached the money order window for the purpose of securing pen and ink, and in the meantime Stephens worked his rabbit foot.

From the postoffice the two men proceeded to the Seaboard Air Line depot, where it was agreed they would take the 2 o'clock train for St. Augustine via Jacksonville. About 12:30 Stephens was reminded suddenly that he had left a fine $10 umbrella and his walking cane at his boarding house. He summoned a carriage, requesting Jones to remain at the depot, assuring him that he would return as soon as he could secure the goods. Stephens drove back to the city, but was gone an uncomfortable length of time, when Jones became uneasy. He reached deep into his side coat pocket and felt the envelope, but something told him that it was not "just right." He pulled the package from his pocket and opened it, to find only a number of sheets of tissue paper.

Jones Chased Stephens.

This was a startling discovery for Jones, who had not been accustomed to any such rascality, and naturally he became alarmed, the prospects of losing that $110 upsetting his nerves. He lost no time in reporting the matter to Chief of Police Pinkoson, who suggested that the negro might be aboard the Atlantic Coast Line train, just about to clear, and suggested that he had better ascertain if the man was on the train. Accordingly a friend of Jones boarded the Atlantic Coast Line train just as she was pulling out, and discovered Stephens in a private compartment of one of the cars. He notified Conductor M. L. Gilmer of the train, and just as the negro emerged from his hiding place, thinking he was at last safe, he was looking into the muzzle of Conductor Gilmer's pistol, with an order to surrender.

Delivered to Police.

The negro was delivered into the custody of Chief of Police Pinkoson, when he was taken to the City Hall and searched. In one leg of his underclothing was found a roll of bills aggregating $190, the exact amount of the money taken from Jones and the money "advanced" as a loan. In a book in his coat pocket was found a handsome brooch valued at not less than $500, one diamond ring valued at $190, and two diamond rings valued at $125 each.

Stephens stated that he purchased the jewels from Charles Meyer & Co., loan brokers, 33 Third avenue, New York, and produced a receipt showing that he had paid $200 for the brooch and $100 for one of the rings. He did not produce receipts for the other two rings. Investigation, however, developed the fact that neither of the big commercial agencies have any record of such a firm existing. It is believed that Stephens is a slick gambler and pickpocket and that the stones were stolen. He claims New York as his home, but says he spends his winters in Florida in the capacity of employment agent for hotels.

Stephens was arraigned the in mayor's court Tuesday afternoon, when he was remanded to jail in default of $500 bond. Wesley appeared as the star witness in the case.

Is it Right?

Is it right that a property-owner should lose $4.20 to let a dealer make 50 cents? A dealer makes 50 cents more on fourteen gallons of ready-for-use paint, at $1.50 per gallon, than our agent does on eight gallons of L. & M. paint and six gallons of linseed oil, which make fourteen gallons of the best paint in the world, at $1.20 per gallon; the property owner loses just $4.20. Is it right?

It only requires four gallons of L. & M., and three gallons linseed oil to paint a moderate sized house.

Ten thousand churches painted with Longman & Martinez L. & M. paint.

Liberal quantity given to churches when bought from S. J. Thomas, Gainesville, J. C. Bishop, Alachua.

Lexington, Tenn., June 5, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully

D. M. Dean Purchases Four Lots in East Gainesville and Will Live Here.

One of the most important real estate deals transpiring in the city for some time was the recent sale by the Home Investment Company of four desirable lots in East Gainesville to D. M. Dean. The lots are located at the corner of East Church and Franklin streets, and are among the most desirable in the city, being situated on a high elevation, perfectly free from moisture.

Mr. Dean, who is an extensive naval stores operator on the East Coast, became very deeply interested in Gainesville as a place to educate his children, with the result that he purchased these lots, he intends to make his home here. He will at once begin the erection of a large and modern home, and Gainesville will welcome the Deans as permanent residents.

Mr. Dean is a Christian gentleman, and a great believer in schools, churches and all moral advancements.

He stated that Gainesville is one of the most moral cities, with the best educational advantages, he has seen in Florida, and for that reason decided this would be a good place to educate a family.
